

## EXTRAORDINARY POWER PROCESS

- Inner work: Aha Moment

Awakening to something deep within you. A deep organic awareness that does not originate in the mind is a "Calling." All the work you are doing in the school awakens your ability to be intuitively called to your life. The language of the Profiles, the 12 Chakra Gateways, and the Full Spectrum Healings create an ability to interpret the most subtle of feelings and experience them as guidance from your soul.

- Conscious choice:

Once you have done your inner work and have felt a life purpose "calling", you have two choices. You have the choice to simply think about it and in so doing avoid the actual purpose of a calling which is to take conscious action. Or you can commit to integrating it into your life now through specific action. The choice is made as you visualize and actually feel the suffering you will experience in your life 1, 5 and 10 years from now if you remain the same, and the joy in your life 1, 5 and 10 years out if you follow this calling. Callings are always the road less taken and will challenge your fear of change.

- Congruent action with your Life Purpose Profile:

Wisdom is not an idea; it is the result of making a conscious choice to take action in the direction of your life purpose. Callings have a gravity that pull you internally to awaken or externally to share your brilliance. Setting moment-to-moment goals that support the action sponsored by the question "What would my [insert your core profile, i.e. Creative Idealist] do with this calling?" is the path to mastery.

- Rinse and repeat:

Staying the Spiritual Path is simple. Learn to be called from deep within, and go with no resistance. And have the energy to do it every day, multiple times a day.
